## Sale Of Salem Mercantile Establishment Reported

### VERIFICATION OF TRANSACTION IS NOT OBTAINABLE

Spring - Holzwarth Co. Is Named In Sale To Marshall-Field

ALLIANCE STORE ALSO SOLD, RUMOR

Interests Control Business Here For Past Five Years

Negotiations were today reported completed between officials of the Spring-Holzwarth Co. and Marshall Field Co. of Chicago, for the purchase of the department stores in Alliance and Salem by the mid-western mercantile firm.

No verification of the reports was obtained today. Final action on the part of both companies involved in the deal is said to have been pending for the past month. Contracts are reported to have been signed Saturday afternoon, in Alliance.

A. K. Switzer, manager of the Salem store, left for Alliance this morning to confer with Frank Baughman, general manager. Both have declared that there was nothing official to report.

Report Deal Is Completed

Officials of the Alliance company Saturday are said to have announced definite transaction as completed. A group of Chicago business men were involved in the deal, the Alliance report stated, officials of the Marshall Field Co. being mentioned in the transaction.

Marshall Field is the largest mercantile industry of the midwest, and in the past year is reported to have purchased holdings further east, with apparent intentions of branching its business into other sections of the country.

The first Spring-Holzwarth store was established in New Philadelphia, in 1894 by J. C. Holzwarth and the late John S. Spring, of Alliance. In 1896 they moved their store to Alliance, where it was incorporated in 1903.

No Change in Management

The Spring interests were taken over five years ago by Frank Baughman and Holzwarth. Baughman has been actively engaged in the management of the stores at Alliance and Salem. It is understood Baughman will continue in that capacity under the new owners.

The Spring-Holzwarth store on Broadway has been a drygoods and department store for many years. It was formerly known as Brian Bros., and later was conducted by J. Harold Brian. In 1921 the store was purchased by the Spring-Holzwarth Co., who increased the floor space last December by the purchase of the Reeves Bros. store.

Sixteen departments, containing 19,180 square feet of floor space, are established in the store at present.

### FORMER OFFICIAL FACING CHARGES

Dr. Dies From Effects of Illegal Operation, Is State's Claim In Case; Under Bond

Wapakoneta, O., Feb. 4.—Dr. S. H. Sibert, 70, former coroner of Auglaize county, will be arraigned Wednesday before Justice R. G. Herrmann in connection with the death of Joseph Butler, 22, of Sidney, who is said to have died from the effects of an illegal operation. Sibert is alleged to have performed the operation in his office the night of January 24.

The charges against Sibert, who is at liberty today under \$1,000 bond, were filed by J. D. Butler, of Mount Pleasant, Mich., father of the girl.

Dale Seger, 35, Sidney machinist, who, according to police officers, lived with the girl at Sidney, is confined in jail in default of bond and is charged with aiding and abetting in the alleged operation. Seger, according to Sheriff Harver Russell, named Sibert as the doctor who performed the operation and pointed to the latter's office as the place where the operation was performed. Seger will be arraigned with Sibert.

## COLONEL LINDY OPENS AIR MAIL ROUTE TODAY

Intrepid Flier Starts On Twenty-Seventh Birthday

Havana, Feb. 4.—Col. Charles A. Lindbergh, who flew here from Miami, Fla., this morning to blaze the trail for a regular air mail service to Central America, hopped off at 9:23 a. m. for Belize, British Honduras, after a brief stop in Havana.

The flight from Florida was made without incident.

News of Lindbergh's hop off at Miami had been flashed to this city and a crowd gathered at the flying field to greet the famous flier.

Lindbergh's final destination is Cristobal, Panama Canal Zone.

New York, Feb. 4.—Colonel Charles A. Lindbergh is 27 years old today.

America's beloved "Lone Eagle" celebrated his birthday in his characteristically purposeful way — by inaugurating a Florida-to-Panama air mail service. He hopped off from Miami this morning for Cristobal, Canal Zone, where he is due Wednesday afternoon.

"Lindy" flies on—blazing new trails. No thought of himself, or his personal safety, but fired with the unquenchable spirit which carried him through on that epochal and mathematically precise non-stop flight from New York to Paris.

Who of this generation will ever forget that historic achievement? What reporter, whose privilege it was to witness the scene, will ever cease to recall that memorable morning at Roosevelt field—May 20, 1927—when this slim, blonde, bronze-faced youth jumped into the cockpit of his plane, "the Spirit of St. Louis," and with a smile said casually:

"Well, we're off."

And the thrill that swept the world as that courageous aviator, alone in his plane, his keen blue

## ILLNESS CLAIMS SALEM RESIDENT

James H. Jessup Dies In Home After Heart Attack

James H. Jessup, 66, died of heart trouble at 6:30 p. m. Saturday at his home, 129 Ellsworth ave. Mr. Jessup was taken ill at 8 a. m. Saturday.

Mr. Jessup was born Dec. 9, 1862, at Richmond, Ind. He spent most of his early life in North Carolina.

In 1889 he came to Salem and has made his home here ever since. After coming to this city he engaged in the lumber business and later had a stone quarry. In more recent years he was employed by the state highway department as a superintendent. He was a member of the Wilbur Society of Friends.

The same year he came to Salem he was united in marriage with Martha D. Stratton, this city, who survives him, with one son, John W. Jessup, of Youngstown; two grandsons, J. A. Elias, Salem, and John William Jessup, Jr., Youngstown. Two daughters, Anna R. Jessup, and Myra Jessup Elias, preceded him in death.

Funeral service at 2 p. m. Wednesday at the home with a Friends service; interment in Hope cemetery.

## GUNMEN MAKE FATAL MISTAKE

Woman Slams Door In Face Of Intruders; Killed When Shots Are Fired

New York, Feb. 4.—Gangland's killers went out on a job early today and murdered the mother of seven children—by mistake.

Mrs. Sadie Petrillo, 36, was shot down in her home by two hired thugs who were after her husband, Adolph. He and the children, ranging in ages from four to 17, witnessed the slaying.

The murder police learned, was the result of a feud among drivers of laundry wagons. Early this morning someone rapped on the Petrillo's door.

"You answer it," Petrillo said sleepily to his wife. She got up and walked to the door, opened it and peered out. "Two men," she told her husband. Mrs. Petrillo slammed the door. Two bullets shattered the glass panel in the door. One entered Mrs. Petrillo's forehead and she fell to the floor.

## Killed By Car

Dayton, O., Feb. 4.—James Kratochewicz, 73, was killed here today when he was run down by a street car. The aged man was on his way to work. He alighted from the front entrance and stepped in front of the car, witnesses said.

## Rumor Lindbergh Named to Post

Miami, Fla., Feb. 4.—Col. Charles A. Lindbergh flew south today with the air mail, leaving unanswered behind him a flock of reports that he would become air secretary in the Department of Commerce after March 4.

Col. Lindbergh was a luncheon guest of the Hoovers yesterday at Belle Isle. He had "nothing to say" about the reports. Mr. Hoover was equally uncommunicative.

## COUNCIL FACES FINAL ACTION ON ORDINANCE

Solons To Discuss Street Measures In Meeting Tuesday Night

Final action on ordinances providing for renaming and renumbering of Salem streets will face city council in its meeting, Tuesday night.

Whether the body will take final action, in the face of opposition, reported voiced in the petition being circulated in the city is uncertain today. The petition is reported being passed by business merchants on Main st., who protest changing the street's name to State st.

A second petition, protesting changing the name of Garfield ave. to North Lincoln ave., is said to have been passed to residents of the street.

At least one member of council—Max Adler, chairman of the special committee which investigated into the probabilities of the changes authorized in the ordinances—is for passage of the measures despite the opposition of petitioners.

"We've worked on the project for six months. For the first five everything was fine, to all appearances everyone was in favor of the changes, and now at the last minute just as everything is done, certain citizens start petitions opposing the plans. The residents have been notified after every council meeting of the provisions of the ordinance, they should not have waited until this time. I am for passing both ordinances," Adler stated Sunday night.

Whether rumors of the resignation of Councilman Frank L. Rollins have been well-grounded will also be ascertained in Tuesday's session. Rumors that Rollins was to resign his council post were current last week, but the solon refused to deny or affirm the reports. He worked last year without compensation, former Atty. Gen. Edwin C. Turner ruling that due to his position as janitor of Prospect school building, he was ineligible to hold seat in council. City Auditor Helen Woerther, receiving Turner's ruling, refused to issue Rollins his paycheck.

Over the five-day period the convention will hear such speakers as Governor Cooper, Supreme Court Judge Florence Allen, Perry L. Green, state director of agriculture; C. G. Williams, director of Ohio Agricultural Experiment station, and Sherman Lowell, member of the U. S. tariff commission.

Various state organizations will hold their annual meetings in connection with the convention. The first of the side meetings is scheduled for this afternoon when the Ohio state horticultural society will convene. Alva A. Peterson and Louis A. Stearns will discuss the Oriental Peach moth before this body.

"The Oriental Peach" moth infestation in the United States centers now in the Ohio valley," according to Stearns, who is assistant entomologist at the Ohio State Agricultural Experiment station at Wooster.

Meetings arranged for later in the week include the annual Ohio State Corn and Grain show, the first annual Ohio Potato show, and an exhibit of agricultural implements and machinery, and a display of horticultural products.

## AKRON JAIL RIOT ENDED BY GUARD

Shots From Gas Pistol Stops All Activities In Prison; Man In Solitary Confinement

Akron, Feb. 4.—Harold C. Houseman, 20, awaiting trial on a highway robbery charge, was in solitary confinement in county jail here today, following a riot of 18 prisoners last night.

At 9:30 o'clock last night the prisoners were ordered to their cells by Deputy Sheriff John Smith but refused to go, declaring it was too cold. Smith entered the "bull pen" where the men were exercising but retreated when he found they were armed with clubs and iron bars.

After a conference with other deputies he fired two shots from a gas pistol and the trouble ended immediately.

An investigation followed disclosing, it is charged, that Houseman was the ringleader of the mutinous prisoners.

Weather for January Was Normal; One Cold Period Recorded

Lisbon, Jan. 4.—There was just one extreme cold spell during the month of January, according to Lawrence H. Copeland of Millport, co-operative weather observer for Columbiana county for the United States Department of Agriculture. Otherwise the temperature for the month was about normal with the rain fall, above normal.

Winter wheat had very little snow protection during January, however, the wheat plants are in a favorable condition at the close of the month. Real winter weather prevailed most of January.

The mean maximum temperature for January was 33.2 and the mean minimum temperature was 15.2. The mean temperature was 24.2. The warmest day in January was the 19th when 64 above was registered, while the coldest was 14 below on the 16th.

Total precipitation during January was 3.94 inches and the heaviest in any 24 hours was 90 inches on the 25th. Total snowfall during January was eight inches with five inches on the ground Jan. 15th and 15 inches at the end of the month. There was not a single clear day during January, and 17 days were partly cloudy, the remainder being fully cloudy days. There were 13 full cloudy days the month when the precipitation was .01 inch or more.

Being given consideration by the legal legislators. A change of time for holding primary elections is also being considered.

A revision of the general corporation act passed two years ago is proposed. This is mainly the work of committees of the Ohio State Bar association. Van Fossen said. Its operation during the past two years has suggested many changes, some of minor importance, but all to make the code more perfect. It is said that Ohio corporation code is considered the best in the United States.

Mr. Hoover is still occupied, and intensively so, with the selection of his cabinet. It is not yet completed. Some commitments have been made, but there is good reason to believe that a majority of the ten men who will constitute his official advisers are yet to be tapped on the shoulder with the final words "you're it."

A summary of the cabinet situation today, four weeks from the day the new appointees assume their responsibilities, reveals how closely the president-elect has kept his own counsel, despite the maneuvers and the strategems of the politicians and the curious to find out who's going to be who after March 4.

Andrew W. Mellon will remain as secretary of the treasury. Of that there is no doubt whatever. No announcement has been made, and none will be made in all probability until March 4, but Mr. Hoover has permitted it to become known that the Mellon dynasty will be continued in the treasury.

## Auto Driver's Bill Will Go Through Legislature, Belief

Columbiana Co. Legislator Tells of Conditions At Columbus

Lisbon, Feb. 4.—The automobile drivers' license bill that has been introduced in the legislature at Columbus is likely to have clear sailing, according to State Representative W. H. Van Fossen of this district, who returned to Lisbon from Columbus Saturday for a week-end visit.

"There has been a decided growth in the sentiment favorable to this measure during the last two years," Mr. Van Fossen suggested.

Erection of an office building for the state is more insisted upon now than ever before. Van Fossen explained such departments as workmen's compensation, board of public works, motor vehicles, civil service commission and others are now housed in Columbus office buildings that are not fireproof, and valuable records maintained in these department offices are said to be in great danger of loss by fire.

He also announced that the codification of election laws is another important measure now being considered. Such a bill passed both houses two years ago and was vetoed by Gov. Vic Donahey. Two bills on this same subject have been introduced in the senate to provide for permanent registration of voters with a possible optional quadrennial registration in cities of 20,000 or more.

It has also been explained by Mr. Van Fossen that as an easier method of getting a recount is also

being given consideration by the legal legislators. A change of time for holding primary elections is also being considered.

## BUCKLEY CASE DISCUSSED BY OHIO OFFICERS

Impeachment May Follow Ruling of State's Attorney

LEGISLATURE WILL CONVENE TONIGHT

Three Methods Available To Remove Treasurer From Office

Columbus, O., Feb. 4.—Possibility that the Ohio legislature may institute impeachment proceedings against Bert B. Buckley with a view to his removal as state treasurer loomed here today.

Governor Myers Y. Cooper announced his intention of conferring with legislative leaders relative to the Buckley case. This conference is expected to take place this afternoon or tomorrow.

State officials today indicated that they may urge Buckley to resign. Pressure of the Republican party, it was hinted, may be exerted along this line.

In the event that Buckley does not resign, impeachment proceedings may be launched in the house of representatives.

"It would be much better if Buckley will realize his sense of party responsibility and resign, even though he appeals his case," declared a high Republican state official today.

In the event that impeachment proceedings are decided upon, a complaint would be presented in the house. By a majority vote, a lower legislative branch could arrange for a hearing which would be conducted by the senate. A two-thirds vote of the senate would be required to impeach Buckley.

Columbus, Feb. 4.—The big question around the capital today as to whether Bert B. Buckley, state treasurer, would be impeached as a result of his conviction of conspiracy to violate the federal prohibition laws and attempted bribery, will probably be answered when the state legislature reconvenes here tonight.

Three ways remain open to dislodge the state official from his office. The first is by impeachment, and the other by a decree from either the appellate court or the Franklin county common pleas court.

Things marked time today awaiting the meeting of the house and senate tonight. Arthur Hamilton, (Continued on Page 4)

## OHIO OFFICIAL FOUND GUILTY OF CONSPIRACY

Attorneys to Ask Sentence Stay for Treasurer of State

MAY APPEAL TO SUPREME COURT

Faces Heavy Fine and Term of 28 Years In Prison

Columbus, Feb. 4.—Appeal for a new trial for State Treasurer Bert B. Buckley, convicted Saturday night on liquor conspiracy charges and attempted bribery, was filed by his attorneys in federal court this morning.

All of the reasons contained in the petition for appeal—14 in number—were vague.

Columbus, O., Feb. 4.—Convicted by a federal jury of conspiracy, Bert B. Buckley, Ohio's state treasurer, today planned to carry his case to higher courts in an effort to escape the sentence resulting from the guilty verdict.

His attorneys were to appear before Federal Judge Benson W. Hough, who presided at Buckley's trial, this morning, and it was thought, they would ask for a stay of sentence.

Appeal for a new trial will be filed this week, his attorneys declared. If this appeal is overruled, they declare they will carry the case to the United States supreme court.

Ten counts were included in the indictment on which the state official was tried. He was found guilty on all counts. A maximum sentence of 28 years in a federal penitentiary and a maximum fine of approximately \$25,000 looms over the white-haired defendant. No minimum is set by law.

The jury of 12 men returned their verdict at 11:32 Saturday night, 13 hours to the minute, since they had begun their deliberations.

Buckley was found guilty of conspiracy.

## CONGRESS ENDS WITHIN MONTH

70th Session Still Faces Stumbling Block In Prohibition Fund

Washington, Feb. 4.—The 70th congress will go out of existence a month from today, and the record of its "lame duck" session largely will be made in the closing weeks.

The present session has completed passage of the Boulder Canyon Dam bill and the senate has ratified the Kellogg multilateral treaty, but beyond these measures little legislation has reached the desk of President Coolidge for approval or rejection.

With the cruiser controversy nearing its end in the senate, that body faces a crisis which promises to cause night sessions before the adjournment gavel is brought down, but leaders of the house regard their work as virtually finished.

The fight over the extra \$24,000,000 prohibition fund appropriation amendment to the urgent deficiency bill, which contains in addition to the dry fund amendment, \$75,000,000 for tax refunds and money urgently needed by many government departments.

Radio legislation promises to assume a place of importance. With the terms of the present commissioners expiring February 23 and its legislative authority expiring on March 16, backers of the White resolution to extend its life another year were planning a drive for action.

## Salem Man Injured In Auto Accident

Kenneth Kelley, of Salem, was slightly injured in an automobile accident, occurring at the corner of Washington st. and McKinley ave., this morning.

The machine operated by Kelley, is reported to have attempted to go around a car driven by Dr. P. R. Crowe, also of Salem. The autos collided, Kelley being forced off the street into a telephone pole, according to the police report of the accident.

## THE AMERICAN LEGION

The membership of the Salem post of the American Legion was approximately 103 last year. It is estimated that there are 400 in Salem territory eligible to membership.

Why so small a proportion of those eligible are not enrolled in an organization so commendable as the legion is a mystery of mysteries. The objects and aims of the American Legion are so praiseworthy; the work it is doing is so good; the influence for peace its members are exercising—an influence the stronger because only those who have had the experience really know the horrors of war and appreciate to the full the blessings of peace—is so strong, that it is hard to understand how any one eligible has not become enrolled in its membership.

The post is now engaged in enrolling new members for the present year. In that work it should have the encouragement of the entire community. There is need for such an organization as the American Legion, and as the years pass the need for it will become stronger. With the stronger need, there should be a correspondingly stronger organization throughout the land, and the local body should in no way be an exception to the rule.

The American Legion is doing a great work for patriotism, for peace and for law and order, and we as a people should give our whole-hearted support and encouragement to an organization committed to these ends.

We sincerely wish the local post all possible success in its work as planned, now and hereafter, and hope that those qualified to strengthen it numerically and add their influence to the accomplishment of its aims will not longer permit themselves to remain aloof, but array themselves with those already enrolled in its membership.

## THIS YOUNGER GENERATION

In contrast to the condemning criticism which we hear these days about the waywardness of the youth of the land, it is very refreshing to hear some good things said of the rising generation. Certainly it all were true that scornful fingers point to and wagging tongues decry, the end of the world must soon be at hand.

The most optimistic point of the situation lies in the fact that the school people who have the closest contact with youth are not greatly excited about the present state of affairs. True they know that there are some wild parties, some drinking, some roadside necking and the like; but they know, too, that it has always been so and even worse. They do not permit the sidestepping of a small minority to obscure their confidence in the high purpose and straight walking of the majority.

No less an authority than Dr. Frank Boynton, president of the department of superintendency of the National Education association, in a recent address to the high school principals of Massachusetts, came to the defense of "the Unspanked Generation." Said he, "Today it takes a better boy or girl to be a good boy or girl than was the case 50 years ago."

Making a comparison with what Old Dobbin could do after a day's work and what the modern automobile can do, Dr. Boynton makes the interesting observation that the "radius of mischief" open to the boys and girls of today as compared with those of yesterday is as 45 to 1.

With regard to the youth in college he quoted several college officials. Thomas A. Clark, for 30 years dean of men at the University of Illinois, should know whereof he speaks: "There is less rowdiness, drunkenness and shiftlessness in the students of today than any college generation with which I have been acquainted."

Dr. Ernest M. Hopkins, president of Dartmouth has no less faith in students of the present day. Said

he, "Our college youth confronts a world of bewildering propensities undreamed of in any preceding generation and faces it unafraid. In straightforwardness, in unhyphenated honesty, in clearness of thought and integrity of action, in aspiration and idealism, their like has not been seen before."

While Dr. Boynton thinks the modern youth is doing a fine job under the circumstances, he is not unmindful of the need of reducing the juvenile delinquency which does exist. His observations while they might hurt with some, are well founded.

"I am not looking for any diminution in juvenile delinquency until fathers care more for the friendship of their sons than for the friendship of their golf clubs," he declared. "I am not looking for any similar diminution among girls until mothers care more for the rare experience of associating with their own daughters than for bringing home a prize from a bridge party."

## What Others Say

The Ohio Good Roads federation, having made a complete survey of the state in co-operation with the department of highways, recommends to the general assembly a program costing about \$150,000,000 for road construction, widening and rebuilding during a period of six years. This is a comprehensive plan, perhaps too extensive since it was worked out by an organization more interested in the need for roads than the manner of paying for them. A program which requires the expenditure of \$30 per capita for the entire population of the state is an immense undertaking. We may expect the legislature to pare down the schedule of proposed mileages somewhat, since that body is responsible for raising the necessary funds.

In an event, it is proper to raise the question of just how advisable it is to spend so many millions of dollars for roads without any means of protecting them after they are built. No private corporation of the present day is going to invest millions of dollars in plant facilities without a further investment for insurance and other forms of protection—to safeguard the property purchased at such cost. The case is the same with the road-building program. Unless the 11,000 miles of highways of the state are to be protected from reckless drivers from banditry, from undue depreciation from overloaded vehicles, the expenditure of \$150,000,000 is pointless.

The most effective method of safeguarding the highways for the use of those who pay for them is the institution of an adequate state constabulary system, competent to enforce the law of the state through out its length and breadth. Such a body of state police, previously urged in these columns, would cost more than \$500,000 a year at most. Thus at an expense of ten cents per capita, or 60 cents for this six-year period, an efficient state constabulary can be maintained which will make a road building program a reality, and not merely a legislative extravagance. Sound business policy, aside from considerations of crime prevention and personal security, demands action on the state police bill, as well as appropriations for highways.—Cincinnati Enquirer.

## RAGE SPASMS UPSET THE ENTIRE SYSTEM

By Royal S. Copeland, M. D.  
United States Senator from New York, Former Commissioner of Health, New York City

Why is it bad for your health to fly into a violent fit of anger and particularly to indulge in frequent spells of anger?

If anger were merely a state of mind it would not be so bad. If it were purely an emotion moving or stirring up the mind alone it might be stimulating and even beautiful because it is stimulating.

But anger does a lot more to you than merely to stir the mind. The casual observer can tell by your very appearance and actions that you are "mad as a halibut."

Your face is flushed, perhaps almost purple. You double up your fists, clenching them so tightly the knuckles are white. All your muscles are tense and hard. Even your breathing is disturbed, so much perhaps that you snort like a mad bull. You scream and yell, perhaps act like a crazy man.

You see at once that anger is a lot more than a state of mind. It involves the whole body and every organ in it.

I would not ask you to be calm and placid, indifferent to everything about you. To be perfectly colorless and absolutely unemotional is an undesirable state.

It is important as you go through life, to have habits and to follow practices that will make for your own welfare as well as the happiness of those about you. Happiness and contentment, founded on right conduct, mean much more than their effect upon your mind.

As a matter of fact conduct of this sort will contribute materially to your physical welfare. The psychologists speak about "euphoria" in general terms this is the sense of well-being. The sacred writer puts it another way. Speaking of wisdom, he said: "Her ways are ways of pleasantness and all her paths are peace."

As I have said this manner of living contributes materially to the smooth operation of all the organs. The functions are normal. With the lack of friction the machinery of the body does not wear out.

Take heed that I am not advocating such a calmness of spirit that the enthusiasms are unknown.

A "solution" of non-enforcement of prohibition.—Milwaukee Journal.

Mr. Hoover is near the average age of the presidents, but that does not prevent his being above the average in some respects.—Boston Transcript.

Lloyd George it is understood, will now give up writing for the papers. Perhaps Mr. George intends to devote his whole time to being near.—Philadelphia Inquirer.

In sending a woman to prison for life for selling liquor, Michigan could have obtained still more publicity by making the commitment on Mother's day.—Milwaukee Journal.

Geologist says that 100,000,000 years ago there was no Gulf of Mexico. But it has covered a lot of ground since.—Chicago Herald and Examiner.

According to the Valva school of physical sciences, Commander Byrd must be just on the edge of this flat world, and in a mighty dangerous position.—Minneapolis Journal.

"Ponyfoot" Johnson is on his way to dry up India and has designs on the Philippines and Japan. Why doesn't he try a sure thing like Sahara?—Atlantic Constitution.

DR. COPELAND

These add to the physical welfare just as the frost of a September morning or the balmy breezes of a May day stimulate the body to action. The reaction to such a stimulus is sure to be helpful to every cell and fibre of your being.

I know how hard it is to control anger and to prevent giving in to it. It is always easier to follow the line of least resistance. It is easier by far to give way to the angry impulses than to attempt to control them. But you should make this effort and control yourself. You must do this to save your heart and blood vessels and to prolong your life.

Answers to Health Queries  
A. B. Q.—What causes dizziness?  
A.—This condition may be due to a circulatory disturbance, to an eye or ear condition, or to some intestinal disturbance. An examination will determine the cause and then definite treatment can be prescribed.

C. R. Q.—What causes a dull ache and soreness in the left side?  
A.—Have your doctor examine you to determine the cause.

M. J. H. Q.—What do you advise for nasal catarrh and sometimes a distressing odor, what do you suggest for this?  
A.—The use of a good spray is helpful. For further particulars send self addressed, stamped envelope and repeat your question.

R. Q.—What causes a sort of lameness in my arm and leg at times?  
A.—You may be troubled with rheumatism, a constitutional disease characterized by pains in the joints and muscles. Some infection is responsible and the source of the trouble must be discovered before treatment can be prescribed. For other information send a self addressed stamped envelope and repeat your question.

M. R. Q.—Is there any cure for infantile paralysis other than isolation, and what can be done to prevent the ravages of the disease?  
A.—There is no specific cure. The general rules for good health will keep the body fit and able to withstand and throw off the germs of such diseases. For full particulars send a self addressed, stamped envelope and repeat your question.

J. E. Q.—What is spinal meningitis? What are the causes?  
A.—An inflammation of the brain and spinal cord. Causes are numerous, always some infection; very often the tubercle bacillus.

J. H. Q.—What will clear up bronchial asthma?  
A.—First of all try to get at the exact source of infection; improve the general health and keep the system clear. For full particulars send a self addressed, stamped envelope and repeat your question.

A DAY of most fluctuating fortunes is foretold by the astral operations. While there are to be many fine conditions, with the ambitions fired to large and fresh undertakings, yet an obstructing figure of Saturn may make it difficult to reach the goal. If you want your position to be reached, despite obstacles, will be that much ground gained and there may be assistance from places of persons least suspected. Women may be a supporting factor. Sign writings carefully. Those whose birthdays fall may have a year of much opportunity with the ambition and activities stirred to new undertakings, but a stubborn obstacle may appear to post upon the issue which with intermittent action and perseverance may ultimately win out. There is assistance from a surprising possible source. A child born on this day may be creditably gaining center stage and audacity and may win out by wit and perseverance.

Mrs. Lyde Cooley, of Evans st., is confined to her home by illness.

## JUDGE CONFERS WITH LAWYERS

### Detail of Statute In Case Of Slayer Obscure; Meet Today

Canton, Feb. 4.—Although there has been no change in court plans to go forward on February 11 with a sanity hearing for Edward Kaitenbaugh, youthful slayer of Mr. and Mrs. John Oser, the mode of procedure under special statute is still somewhat obscure, and Common Pleas Judge A. W. Agler has summoned Prosecuting Attorney Henry W. Harter, Jr., and Defense Attorneys, Carl F. Klein and John P. Gorchow to confer with him today in an effort to straighten out some of the confusing details.

Up to this time six prominent state alienists have examined the 21-year-old defendant. Two of them never made public their findings, three pronounced him feeble minded and therefore not morally responsible for his acts, and one other, Dr. E. A. Baber, head of the Longview hospital at Cincinnati, is still to be heard from. Dr. Baber has promised to submit a written report on the mental condition of the prisoner.

Ever since the sanity question was raised by the defense, the attorneys in the case and Judge Agler have studied the language of the statute with considerable application, and they are still uncertain as to its full meaning. So far as can be learned the law never has been tested since its enactment, and therefore there are no guiding precedents.

### LINDBERGH

(Continued from Page 1)

throng at Le Bourget field, Paris! He had made it—in 33 hours and 29 minutes.

"I'm Charles Lindbergh," he said as he crawled out of the cockpit. As if they didn't know!

All the adulation of idolizing millions, the homage of kings and rulers, the medals conferred upon him by various countries, the tumultuous celebrations in his honor, the round of receptions, and even his unprecedented homecoming on a United States warship did not change this modest youth a whit. Overnight he became the symbol of American youth and manhood, and so he has remained to this day.

No movie offers could tempt him. He declined huge sums of money offered as gifts. He would accept only one reward for his great flight, the prize of \$25,000 that had been standing for years for the first man to accomplish the feat. He refused to be exploited. He would sign no advertising testimonials.

In brief, he would do nothing that would not, in a dignified, honorable way, promote the advancement of aviation. That was Lindbergh's announced ambition once he became internationally famous, and he has adhered to it to this very day.

Since his epic Paris flight he has blazed new trails, and he probably will continue to do so until he dies. He flew to Mexico and to South America as a "good will ambassador." He was the first man ever to fly over the towering peaks of the Andes mountains. He has flown to almost every nook and corner of the United States in the interest of the promotion of aeronautics.

"Lindy" on his twenty-seventh birthday finds himself perhaps the most-talked-of man in the world, a credit to himself and to his country.

After eating early breakfast, Col. Lindbergh came upon the Pan American field at 5:40 with James A. Patch, general traffic manager of the Pan-American lines.

"Everybody stay off the field please," the flying colonel requested, and guards cleared the 1,500 persons from the field.

A few minutes later Col. Lindbergh was in his plane.

"Well, we're off again," he smiled. After reaching Havana, Col. Lindbergh wended his way to British Honduras, and thence through the west Central American coast to Cristobal, Panama Canal Zone.

Col. Lindbergh yesterday was the luncheon guest of President-elect Hoover.

Aboard the air mail plane with Col. Lindbergh are John Hambleton, vice president of the Pan-American Airways, Harry Bunkley, radio operator, and J. T. Trippe, president of the Pan American company. Trippe will go only as far as Havana.

Colonel Lindbergh's plane, a Sikorsky amphibian two-motored ship, will keep in constant touch with the mainland by radio.

Five hundred pounds of mail were loaded onto the ship before the take-off.

## APPEAL CASE

(Continued from Page 1)

spiring with John L. Schrimper, Cincinnati attorney, and Joseph Sperber, brewmaster of the Jackson brewery at Cincinnati, to violate the national prohibition laws. He was also convicted of attempting to bribe John F. Eckhart, federal assistant prohibition commissioner of the Indiana-Ohio district.

He went on trial last Monday, and the case went to the jury at 10:32 a. m. Saturday.

Buckley's conviction was the outgrowth of the raiding of the Cincinnati brewery Oct. 5, when the beer containing over the legal percent of alcohol was found. Joseph Sperber, the brewmaster, retained the services of Adolph ("Dolly") Gruber. The latter put himself in the hands of Schrimper, when the latter said "he might be able to do him some good." Schrimper in turn went to Buckley Buckley referred the men to John F. Eckhart, the dry agent.

Event followed event until Dec. 31, when Buckley and his two co-conspirators were indicted by a federal grand jury. Schrimper and Sperber pleaded guilty when arraigned, but Buckley asked for a trial.

**Claim Bribery Offers**  
At the trial Eckhart said that Buckley offered him \$300 a month and political influence to obtain for him the job of assistant prohibition commissioner, if he (Eckhart) would tip him off as to when certain raids would be made on Cincinnati breweries.

Buckley, according to Eckhart, also declared that he expected a "big fine house of the deal," and that he expected \$250 "protection money" for every half keg of "real beer" that went out of the Cincinnati breweries.

The white-haired defendant denied the contentions.

At all times during the trial the courtroom was packed.

It is understood that four ballots were taken by the jury before the guilty verdict was agreed to. At each ballot, it was said, the jurors stood 11 to 1 for conviction, until the final one.

### CARD OF THANKS

We desire in this manner to thank our friends and neighbors for sympathy extended us in our recent bereavement; also for floral offerings and autos furnished and Rev. C. L. Bailey and Rev. Kinsey of Damascus, for consoling words, and the choir and palbearers.

# Half-Way Mark Passed This Week In City League Basketball

## Akron North Gives Salem High 28-26 Beating In Slow Game

### Absence Of Sidinger Handicaps Offensive Strength Of Stonemen

Minus the services of their captain, Eddie Sidinger, Salem High tilters were unable to get started until the last three minutes of their floor duel with Akron North High at the Salem gym Saturday night, the Stonemen dropping a 28-26 decision to the Eskimos.

Basketball played by the Red and Black until final minutes of the last quarter never surpassed the mediocre. Without Sidinger the team was woefully unable to get its usually fast, snappy-offensive offense working.

With three minutes to play, North holding a 28-17 lead, the Quakers started zipping in points from all angles of the court, forcing North to the defensive for the first time during the contest. Three consecutive field baskets, tossed in from near the center of the floor, and a pair of foul goals placed Salem within two points of North's lead, when the game ended.

**Poor Offensive**  
Poor offensive work—shooting of fouls and field goals, and the slowness of the Red and Black's scoring attack—undoubtedly was the main factor in the defeat. North was outscored, 11 to 9 in total field goals tallied, but Ted Turney's boys made every foul shot count, while the Salemists snagged only four out of a possible eight. Salem forwards had chances galore to gain the lead early in the game, getting numerous shots of the sucker variety under the North goal, but failed to connect.

Both teams started off nicely in the first quarter, and at all appearances it was to be a close, well-played and hard fought affair. Vernotsky started the point-making, collecting a bucket from the side, and Costella sneaked away from the foul line. Guilford fouled Vernotsky, whose shot gave a 5-0 lead in the first three minutes of the session.

**Scullion Scores**  
Scullion tallied one of his favorites from the side, and Whinnery potted a foul shot, after Fisher over-guarded, Greenstein fouled Vernotsky, who counted the point, and Myers, getting away from his guard, shot in a dandy from the side. Scullion sunk his second of the period, another from the side, and Whinnery brought the score to 7-8, Akron leading, with a long shot from the center. Fisher, fouled by Greenstein, scored the last point of the quarter, which ended with the Eskimos holding a 9-7 lead.

Play slowed down considerably in the second session, neither team tallying a point until the last four minutes of action. Scullion missed a chance to knot the count, missing both foul attempts after Myers was called from playing his usual while he was attempting a shot. Vernotsky came through with the first points a field goal from the north corner, and was fouled by Guilford in making the basket. He scored the second of the gift shots, placing North ahead, 12-7.

Scullion potted a foul, and Whinnery plunked in his second fielder of the contest, for Salem's only points in the second session. A fielder by Vernotsky, shortly before the period ended, brought the scoring to a close. North had a 14-10 margin at the half.

**Bad Third Period**  
The third period was disastrous to

## East Liverpool Boy To Battle In Alliance Ring Show

Alliance, O. Feb. 4—Alliance will be the mecca for boxing fans of all surrounding cities, Tuesday evening, Feb. 12 when Jimmy Jones, former Alliance welter-weight, comes back to his home town to battle Leo Genet of Barbenton in the 10 round feature bout at the new Barnes A. C. auditorium.

Promoter Ray Barnes is sparing no efforts as he tries to line up a real ring card as a supporting cast for the Jones-Genet encounter.

Ray Mitchell of East Liverpool will oppose Jackie Welch of Sebring in the six round semi-final. Mitchell and Welch are to scale 138 pounds. Welch has an old score to even with Mitchell. The latter stopped the Sebring boy via the technical kayo route some time back at East Liverpool.

Bill Reeder of Alliance and "Bat-

ting" Brian of Sebring, two new heavyweights, are to clash for the second time within a month. They stepped four rounds to a slam-bang draw verdict on the last card. They are again billed over the four round route.

Earl Grates of Alliance and "Sailor" Lee of Sebring, bantam-weight rivals, will mix in a six rounder. Lee will be out to stop the Alliance boy who doled out a past-for to Jimmy Lee a brother of "Sailor" on the last bill here.

"Sailor" Lee and Grates have met twice before and each won a decision.

Promoter Barnes is busy trying to line up one other bout in addition to a good curtain raiser. Neil Lorden of Alliance will referee the semi-final and the feature bout. The show will start promptly at 8:30.

The president, Miss Wilma DeJane had charge of the business session at which time plans were made for the coming year. Miss Florence Tingle had charge of the devotionals. The remainder of the evening was spent with music and contests with Mrs. Ray Davis and Miss Wilma DeJane sharing the honors. Lunch was served by the hostess. The class

## Salem High Girls Lose Close Game To Leavittsburg High

Flashing through to an early and apparently decisive lead, Salem High girls finished poorly in the spectacular cage struggle with Leavittsburg High, Saturday night, and dropped their third game of the season, by a 29-28 score.

After outclassing the township maidens in the first half, the Red and Black dropped back into a slump in the third and fourth periods, while Leavittsburg forwards ran wild, connecting for 21 points to Salem's 11 in the last half. Salem led, 17-8 at the end of the first two sessions.

Field goals by Litty, Kent and Zelle and a foul toss by Kent gave Salem a 7-2 edge at the start of the second quarter. Leavittsburg was unable to break through the stellar defense made up of Captain Della Barnes, Betty Moss, and Krepps, during the half, while Salem forwards had little difficulty in tossing in counters.

**Barnes Disqualified**  
Captain Barnes was disqualified on three personal fouls, in the middle of the third period, and the Red and Black defense suffered severely. Leavittsburg started a scoring spree, tallying six field goals during the quarter, while Salem scored five points. Score at the start of the last quarter found Salem still leading, but only by two points, 22-20.

Folund sunk a field basket in the start of the final session, to tie the count. Kent plunked in another from the foul-line, and a foul toss by Zelle gave her team a three-point lead. Zelle tossed in another foul, but McKeeven came back with two successive fielders, and the score was again tied at 28-all. Zelle tallied another pair of fouls, Jones caging a gift shot for Leavittsburg, with one minute to play.

With her team trailing by a single point, Jones snagged a long

shot, but only by two points, 22-20.

An article published in an outdoor magazine recently stated that if fish were to be eaten that they should not be kept in a live box or on a stringer as fever sets in and that they were not as palatable. It was also stated that the stomach collapsed and that a kind of action on the flesh that affected the taste. Recommendations were that the fish be killed as soon as it was taken.

This is rather a radical departure from the accepted methods as from the time you were able to put suckers or chubs on a forked stick an effort was made to keep them alive as long as possible. It sounds rather logical, however. I have been told that the flesh of a guinea fowl becomes dark and unpalatable if the fowl are pursued and then frightened before they are killed and that the proper way to kill is to shoot.

This only applies in a small way to the fish angle. There is little doubt that physical change must take place in a fish that has fought a stringer for a day or has been spending several days in an effort to escape from a live box. Trout fishermen for years have killed trout before placing them in a creel.

Stringing a large fish has always been a pet hobby of mine. A lacing needle and chalk line were always used for bass. The needle was passed through the upper and lower jaws and then tied tight to form a "base" for the stringer. The fish were uninjured and unharmed by cord and as a result a fish lived far longer.

I had a very fine bass tied this way in a sunken boat in Clear lake, Lenawee county, Mich., and kept him alive for several days. The boat was just awash in three feet of water and I would wade out to the boat and bring him in for the campers to admire and in many cases have pictures taken with him.

Incidentally, one of the best fish pictures I have was taken of myself in a heroic pose and a casting rod

**Dining Room Picnics**  
Into the modern mode of living has come electric table service. No longer is mealtime conversation interrupted with trips to the kitchen for hot foods, for tea or for coffee.

Now Electricity—swift, silent, efficient—prepares the meal right at the table. The electric switch has replaced the cooking spoon.

Snap! — and the electric toaster browns bread into crunchy goodness. Snap! — and the water bubbles merrily in the egg cooker while the coffee is poured piping hot from the percolator. Snap! — and the bacon is being delicately crisped over the glowing grill.

Breakfasts and light luncheons have become dining room picnics. Electricity is the new maid. Are you making fullest use of her services?

# MOVIES

## In Playhouses Of Salem

**"THE GOOD-BYE KISS"**  
The Good-Bye Kiss, at the State theater is a wonderful tribute to the career of the man-Mack Bennett—who developed so many able actors, directors and technicians in the motion picture profession.

It combines melodrama, comedy, pathos and suspense in a way that leaves nothing to be desired in the form of screen entertainment. It presents a former vaudeville star in

a comedy role that is unusual. It gives us two new juveniles who are exceptionally clever and appealing.

As a spectacle, "The Good-Bye Kiss" is marvelous. As a comedy it is a riot. As a love story it has not been surpassed.

Johnny Burke has the featured comedy role in the picture. Johnny is as funny off the screen as one person can be, and he is just as funny on the silver sheet. He does a marvelous comedy role in "The Good-Bye Kiss" and is sure to be heard from as a motion picture comic.

Sally Eilers, a Bennett "find" is the girl. This little girl is pretty, a clever actress and an appealing personality. She was convincing in the most difficult dramatic scenes, which is a test for even the most experienced actress. Little Sally is a credit to her eminent discoverer.

Matty Kemp, the juvenile lead, is another Bennett discovery. He is a likable chap, who ably portrays the cowardly soldier, who eventually "finds himself."

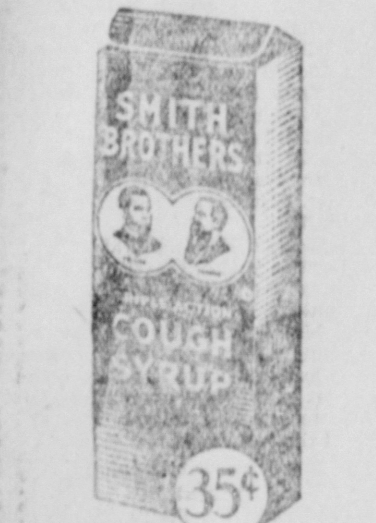

### "SINGING FOOL"

Depths of tragedy are sounded by Al Johnson in "The Singing Fool," the special production in which he is presented by Warner Bros. tonight at the Royal theatre.

In it he is revealed as one of the most powerful emotional actors on the screen. His creation is in decided contrast to his work as a comedian, though his former work has partially demonstrated the power of which he is capable.

In "The Singing Fool" he is first seen as a carefree, wis-cracking entertainer—a singing waiter in a New York cabaret—but eventually there comes to him a weight of sorrow and mental stress that entirely changes the course of his life. Everything which he has attained through years of striving is suddenly stripped from him, and the way he meets and copes with his misfortunes makes a story of absorbing heart interest.

Married to a revue star who falls in love with another man, the singing waiter suffers torments, which include the death of the child to whom he is passionately devoted. "The Singing Fool" runs the whole scale of human emotions.

Timely Suggestions to Aid in Good Housekeeping

Have you an adjustable ironing board in your home? If not, you should have. The board, usually made of wood or metal, is a handy attachment frame. When you stand the board on end the legs collapse against the back—and it takes up no more room behind the closet door than the old board did. The pads which cover the adjustable board face on, they have non-scratching eyes, and six yards of lacing tape to hold it in place. The cover is made of heavy duck and the lining is of wood felt.

If you are interested in color then you probably have long sorrowed over the somberness of the old gas stove. Sorrow no more, but invest in a colored stove to match the decorations of your kitchen. Maybe you have already installed a colorful sink with dish dasher attached and the new faucets that need no cleaning. If so, match the stove to the sink. And while you are about it, match up the new refrigerator and insist upon its being

of the most attractive colors for shelf papers. They cut the edges in points and scallies and in case of an invasion of water bugs or ants they can be disposed of readily. If one uses the cloth it is expensive. Usually we wipe it off and put it back after a cleaning, not realizing that the insect eggs stick to the wrong side and we have the same trouble all over again.

Among efficient kitchen helpers, a new mixer that seems to be almost human. It is, rather, high priced, but it does many things. It whips cream or mayonnaise, it beats butter for cakes or beats apple sauce, mashed potatoes, or anything that wants an efficient beating to smooth its quality.

There is a shining attachment that slices potatoes, cucumbers, apples, beets and cabbage and fruits, doing the work quickly and thoroughly. Another attachment grinds meat and there is a handy strainer for all purposes, especially to act as a sieve maker. After it is attached and loaded there is nothing to do but watch it work. It comes high but is a wonderful convenience for cleaning up. It is one designed especially for brushing the hardwood. The brush is in the fringed web that is treated in a way that removes all dust and oils at the same

## LOCAL RAILROAD MAN

### PRAISES OWA-TON-NA

"Kidney's Liver and Stomach Disorders Almost Had Me Licked," Says Mr. Dinkel.

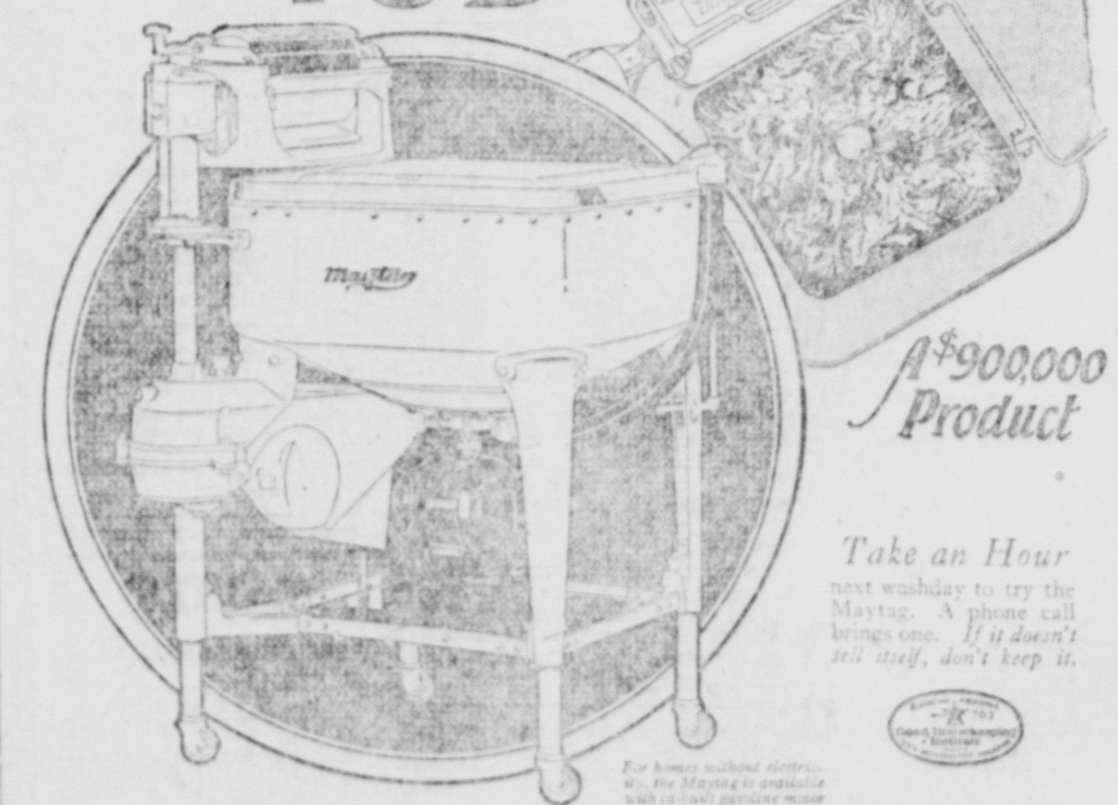

Active work takes an active body. Sluggish body functions gradually sap energy and vitality, leading to disorders of the kidneys, liver and stomach, later bringing about rheumatism, neuritis, nervousness and general run down condition of health. Modern competitive effort demands extreme care of health. To do one's best, the body must be fit. Mr. O. C. Dinkel, 811 Sixth St., N. E., Canton railroad man, tells of his experience and how he checked disorders which were gradually robbing him of his health. He says: "Last summer I could feel that I was losing my old time pep. My stomach did not function properly, food did not seem to agree with me. I just didn't seem to have any appetite at all. When I did eat, food lay in my stomach like a lump of lead, gas and bloating spells were the result. "I would go to bed at night and after what seemed a good night's sleep I would be just as tired in the morning as when I went to bed. My kidneys were giving me a great deal of trouble, causing me to get up several times at night. My skin started to break out in eruptions and I suppose my blood must have been in bad condition. I tried many different medicines without any result until finally some one recommended that I try Owa-Ton-Na. "You can imagine my joy when I feel more results from one bottle of this fine old Indian Remedy than all the other medicines I had taken put together. My stomach started to act better right away, my bowels now act regularly and once again I can eat whatever I please and I certainly have a wonderful appetite. Once again I am getting back my old pep and feel like doing a day's work. Backaches are a thing of the past, as well as those terrible headaches. My wife also has taken Owa-Ton-Na with good results. I certainly can recommend Owa-Ton-Na to any sufferers who suffer with any of the conditions for which it is recommended. "This is but one of many who have found in Owa-Ton-Na just the remedy they have been looking for. Why not try a bottle yourself today? In Salem, Owa-Ton-Na can be obtained at Flooding's, Bolger & French and at Lease drug stores.—Adv.

## The MAYTAG Cast Aluminum TUB

The Maytag tub was originated and designed by the Maytag Company and a \$900,000 aluminum foundry, the finest in America, was built to produce it economically.

It keeps the water hot for an entire washing, and is shaped to guide the gyrofoamed water into many cross currents. The sediment trap collects the loosened dirt and keeps the water clean. The gyrotator is counter-sunk into the tub so that it will not tangle the clothes nor injure buttons.

## A THREE DAYS' COUGH IS YOUR DANGER SIGNAL

Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs creosote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to creosote, other healing

elements which soothe and heal the inflamed membranes and stop the irritation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs. Creomulsion is guaranteed satisfactory in the treatment of coughs from colds, bronchitis and minor forms of bronchial irritations, and is excellent for building up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. (adv.)

**It pays to go to the Buick Dealer**

Two used cars may look much the same from the outside. Mileage, model, tires and general appearance may be all about alike.

Yet there may be a great deal of difference nevertheless—a difference in mechanical condition which will soon show up in actual driving.

You have only the word of the dealer to go by.

That's why it pays to go to the Buick dealer. You can rely on what he says. And you may be sure his price is fair.

## \$50.00 In Cash Awards For Guessing Pictures.

This is One of a Series of Pictures of Salem Merchants or Salem Business Places, One of Which Will Appear in The Salem News Each Week

FIRST \$25.00 AWARD

\$15.00 - \$10.00

Second Award Third Award

### AN INTERESTING CONTEST FOR THE ENTIRE FAMILY

This "Guess Who" contest is being sponsored by the various business houses whose advertisements appear on this page and you will find it an interesting way of renewing old acquaintances as well as making new ones.

Each week you will find a different picture until there has been a total of Twenty-Two and under each picture are three questions to be answered by each contestant. Each picture will be numbered and in order to compete in this contest it will be necessary for you to identify each one, starting with number one and continuing up to and including number twenty-two.

The pictures will consist of various business men or business women, store managers and store fronts, but each picture will be some part of one of the advertisers business. There will be only one picture for each of the advertisers whose name appears on this page. Many of the pictures you will recognize easily, others you may be in doubt about but all you need do to identify them is to take the picture each week to any of the business places whose advertisement appears here and ask any of the employees if the picture represents their place of business. Any advertiser on the page will be glad to answer your question. Start in right away. See if you can identify the picture that appears today.

## Rules of Contest

- 1—Read the advertisements on this page carefully. Decide which one the picture represents and fill in the blank lines.
- 2—Save the picture and your answers until you have a complete set of 22.
- 3—When you have the complete set, write a letter stating why you deal at the various business houses who are represented on this page, either as a group or individuals.
- 4—Each set of pictures must be accompanied by a letter but each contestant may submit more than one letter.
- 5—Neatness of letter and correctness of answers will be the deciding factor in deciding the winner.
- 6—Letters must not contain more than 250 words and paper should be written on one side only.
- 7—Letters must be written in long hand.
- 8—No merchant represented on this page, their employees or members of their families are eligible to compete in this contest.
- 9—No employee of the Salem News or members of their families are eligible to compete in this contest.
- 10—When you have a complete set of pictures, bring or mail them together with your letter to the "Guess Who Editor," The Salem News office.
- 11—The decision of the "Guess Who Editor" as to the winners will be final.
- 12—All answers must be at the Salem News office by 5 p. m. Friday following the appearance of "Guess Who Picture" Number 22.
- 13—Winners of the contest will be announced on this page as soon as possible after the close of the contest.
- 14—Each copy of the paper may be obtained at The Salem News office.
- 15—In case no complete set of answers is returned, the ones sending in the nearest sets and best letters will be decided as winners.
